

You're Invited!

Are you looking to **improve communication with your laboratory**, save time, and simplify the denture process? Then this online course is right for you!

Dr. John Nosti, a functional cosmetic dentist and clinical director and speaker for The Clinical Mastery Series, will be hosting 6 **exclusive webinars on the Chairside tools** that will help you and your Laboratory provide the best possible solution for your patients.

Removable prosthetics is one of the fastest-growing and most frustrating procedures in general practice. Attracting more implant patients means attracting more edentulous patients! Attendees will learn how to become faster, more predictable, and increase profitability in removable prosthetics, all while providing an outstanding cosmetic result.
